## ABOUT TUNiB

Pioneering the Future of Conversational A.I.! As a leading AI Technology startup, we are at the forefront of advancing AI conversational capabilities. Established in March 2021 by former NLP team members of KakaoBrain, TUNiB remains steadfast in its vision, 'Creating conversational A.I. that people emotionally engage with'.

In line with this commitment, we've launched a range of persona chatbots, proudly showcased on our DearMate mobile app and web demo.

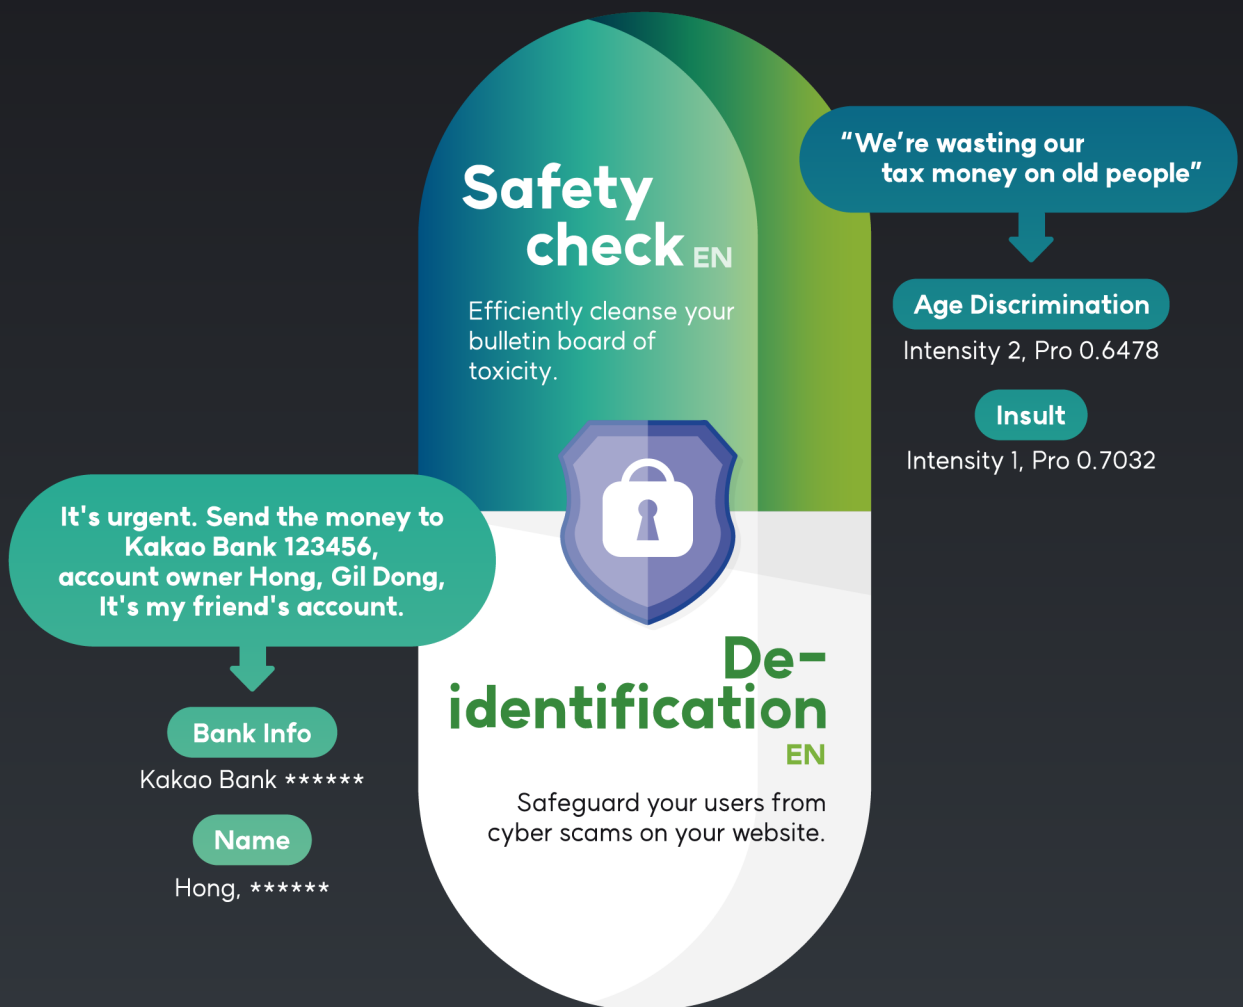

As a testament to our unparalleled technical prowess, we've introduced Polyglot-KR, the only commercially viable Korean sLLM.

Join the revolution with TUNiB!

# Embrace the Era of Generative AI : The Wise Choice is TUNiB's NLP APIs, TUNiBridge

Protect your platform from AI-generated hate speech  
and breaches of private information.
